May 8.

Given under my hand at my office at Santa Fe this 18 day of Jan. A. D. 1855.

NOTICE TO THE INHABITANTS OF NEW MEXICO.

The Surveyor General of New Mexico, by an of Congress approved on the 22nd July 1854, is required to "make a full report on all such claims as originated before the cession of the Territory to the United States" "by the Treaty of Guadalupe Hidalgo of 1848, depicting the various grades of title with his decision thereon as to the validity or invalidity of each of the same under the regulations, and customs of the country before cession" "to the United States." And he is also required to make a report in regard to all *Pueblos* existing in the Territory, showing the extent and locality of each, stating the number of inhabitants in the said *Pueblos* respectively, and the nature of their titles to the land. Such report to be made according to the form which may be prescribed by the Secretary of the Interior, which report shall be laid before Congress for such action thereon as may be deemed just and proper with a view to confirm boundaries and give full effect to the Treaty of 1848, between the United States and Mexico.

Claimants in every case will be required to file a written notice, setting forth the name of the "present claimant," name of "original claimant"—nature of claim, whether inchoate or perfect—its date—from what authority the original title was derived—with a reference to the evidence of the power and authority under which the granting officer may have acted—quantity claimed, locality, style and extent of conflicting claims, if any, with reference to the documentary evidence and testimony relied upon to establish the claim, and to soon transfer of right from the "original grantee" to the present claimant.²¹

Every claimant will also be required to furnish an authentic plat of Survey, if a survey has been executed, or other evidence, showing the precise bounds and extent of the tract claimed.

To enable the Surveyor General to execute the tyts imposed on him, by law, he has to record all those individuals who claimed lands in New Mexico before the treaty of 1848, to produce evidences of such claims at this office at Santa Fe, as soon as possible.

TO DONATION CLAIMANTS.

The act of Congress, above referred to, grants 160 acres of land to every white male citizen of the United States, or every white male above the age of 21 years, who has declared his intention to become a citizen, now residing in New Mexico, and who was so residing—for 1st January 1853, and to every white male citizen of the United States and to every white male above the age of 21 years, who has declared his intention to become a citizen, who was residing in the Territory on the 12 January 1853 or who shall remove to and settle here at any time prior to the 1st January 1853 the same law also grants 160 acres of public land.

No claim to any such donation is valid unless the has or shall be settled on, and cultivated for four successive years; and no such donation claim is allowed to interfere in any manner with any claim recognized by the Treaty of Guadalupe Hidalgo.

All individuals claiming the benefit of such donation will find it to their interest to give the earliest possible information to the Surveyor General, as to the localities of their settlements, in order to enable him to direct his surveying operations accordingly. The localities in each county shall be described as distinctly as possible in reference to any and all notable objects in the vicinity.

Given under my hand at my office at Santa Fe this 18 day of Jan. A. D. 1855.

WM. PHILHAM,

Surveyor General of New Mexico.
